How KRANE Points are Tabulated

There are two separate circuits for which Krane awards points; the world Tour and the State Championships.

KRANE World Tour - All world tour tournaments carry the same number of points regardless of their state rating. A competitor must compete in at least 50% of the tournaments offered on the world tour. The competitor's total scores will be used as opposed to the 9 best scores. The tournament calendar years begins in January of the new year and runs through December of that year.

KRANE State Championship Circuit - The KRANE State Championship Circuit was Introduced in 1997. Competitors earn points based on the tournament's "A" or "B" sanctioning. The competitor's total score will determine their ranking. Scores will be tabulated for each competitor and be listed in that individual's state of residence. Example; if a competitor is registered in Rhode Island and competes in New Jersey the points will be carried back to their home state. There is no minimum required amount of tournaments that a competitor must attend for state championship ratings. At the end of the year KRANE holds a National Championship Tournament that all rated state champions will be seeded into. In the event that the rated person is not in attendance the next highest rated competitor will get the seed. Additionally, all state Champions will receive an award at the Awards Banquet held at the begining of each year.
